November... - 3 months ago

we adopted a new kitten from a rescue shelter...i also transported 2 kittens to their new mom...and i found the coolest thing for orphan kittens!!! it's called a Catsifier & it's a pillow with 4 latex (kitten bottle type) nipples so the little ones can find some comfort like the would with their kittymama :D
i donated 2 to the rescue we got our little cutie from & the lady said 3 kittens were using it almost instantly!
now if i could get my little one to use it instead of my pj top (her teeny claws hurt lol)
